

LETTER OF RECOMMENDATION

To whom it may Concern,

I have had the pleasure of viewing Mr. Naman Jain's professional development over the past two and a half years. I can state with confidence that he is a highly motivated individual with strong leadership skills and a demonstrated history of assuming and successfully fulfilling positions of responsibility. As such, I expect that he will be a very positive addition to any organization looking for great talent to join them.

Manipal The Talk Network, an independent student-run organization, has quickly evolved to become the most prominent media body at Manipal Academy of Higher Education (MAHE), Manipal.

Naman joined Manipal The Talk Network, in September 2017, as a graphic designer. He went on to work for the Web and App Development Department and later continued his term in the Videography Department. Looking at his dedication and quality of work, he got promoted to the position of the Head of Web and App Development in August 2018 and the Head of Videography in May 2019. During his tenure, he displayed excellent professional preparation, exceptional personal qualities, and high team spirit. His passion for work and leadership qualities, along with strong technical skills, has helped him grow tremendously as an individual.

He notably displayed great potential in the area of software development by meeting all the requirements effectively and efficiently contributed valuable insights for future improvements. His most significant contribution includes releasing the official mobile applications and working as a backend developer to provide seamless solutions to the organization.

I would recommend Naman for his dedication and understanding of the company's way of things. A self-driven individual, he would be an asset to any organization. I wish him all the very best for his future endeavors.

Regards,

Sanket Baheti

Head of Operations
